

Compliance Brief

Legacy Grove Codex LLC — Mandated Eight-Domain Stack

Core Mandate: Policies Promise. Pipelines Prove.

At Legacy Grove Codex LLC, we operate with a rigorous **Compliance-by-Design** posture to safeguard data sovereignty, AI safety, and multi-generational knowledge preservation.

The Mandated Eight-Domain Infrastructure Stack

Codified in Article V of our Operating Agreement, these eight domains create an **unbreakable technical line of defense** and a legal **Liability Shield**.

Governance & Risk Orchestration

Risk decisions are systematically mapped to active technology controls.

AI Discovery & Security Posture

Continuous cataloging of all models and third-party API integrations.

Agent Orchestration & Workflow Control

A deterministic registry bounding the task capabilities of Interactive Digital Companions under active human supervision.

Data Security Posture Management (DSPM)

Data Lineage & Pipeline Visibility

Verifiable validation of training data origins to

Identity & Access Governance

Machine identity trails logging every

Automated, real-time controls governing how sensitive datasets interact with AI endpoints.

establish immutable compliance audits.

automated system action.

Runtime Protection

Continuous behavioral telemetry to instantly identify model drift or system anomalies.

Supply Chain Integrity

Rigorous tracing of all upstream updates, open-source dependencies, and vendor security patches.

Regulatory Alignment & Legal Defensibility

LGC LLC strictly maintains NY-level compliance baselines to defend our systems and clients against administrative and regulatory actions, regardless of the evolving federal landscape.

FTC Section 5 (UDAP)

By tracking and logging every algorithmic transaction via Node 5 (The Runtime), we eliminate the risk of "unfair" system behavior and prevent algorithmic disgorgement.

NY RAISE Act (S.B. S6953B)

We establish strict safety frameworks and incident reporting parameters to ensure transparency for high-impact models.

California AB 2013

We maintain and publish comprehensive dataset summaries to guarantee public-facing data transparency.

EU AI Act

Our pipeline is built to align with the world's most rigorous global risk-tier thresholds, guaranteeing international interoperability.

The Continuity Protocol & Sovereignty

To ensure our infrastructure is never "stranded" or compromised by typical corporate transitions, LGC LLC is governed by a **Legacy Clause**.

In the event of a generational shift, the complete **100% membership interest** and the underlying **TASH execution engine** are subject to an automatic, unconditional transfer protocol to designated heir **Hakem Nadir Harris** (DOB: June 18, 2019).

Active Institutional Credentials

Verify our standing within municipal, state, and federal operational theaters through our active public records.
